

4<sup>th</sup> November 2019

Dr Cecilia KY Chan

University of Hong Kong

Room CPD-1.81, Centennial Campus, HKU

Dear Dr. Chan:

We are pleased to hear that you will receive matching contribution from the Hong Kong University Grant Council (UGC) for our cash donation. As mentioned, we are very supportive of your work on holistic competencies. We believe your approach will truly have an impact on the society and assist children, teenagers and young people to serve the society better.

We understand in order to receive matching contributions for the in-kind donation from the Hong Kong University Grant Council (UGC), some further action is required.

In light of this, we would like to improve on our in-kind donation by donating the perpetual software system (i.e. the tailor-made components for the holistic competency research and development) to you for advancing your research at the University at no additional cost, as detailed below.

DESCRIPTION	VALUE AT HK\$
Cash Donation (As per acknowledged on the 12 September 2019)	500,000
The perpetual software system (i.e. the tailor-made components for the holistic competency research and development) for Dr. Cecilia Chan's research purposes at the University	1,813,500

We hope this will help you to achieve your research goals and advance this noble cause.

Please feel free to contact me if you would like to discuss or have any questions.

Sincerely,

---

James Denton
